---

## EXPERIENCE

I have done a work trial at Engiselle company by using Next.js, Node.js and React.

My tasks are related with...

- running website's frontend and backend,
- data migrations to import tables into database,
- inserting data into tables, logging in as "admin"
- and creating delivery plans.

April 17, 2024 – May 17, 2024

I have 5 month working experience with DigitalNext, Singapore Company.

At DigitalNext, I have to do the project by using Vue3, Vuetify3, JavaScript, HTML, CSS, Node.js, Strapi, API Integration.

My tasks are related with...

- Developing frontend pages
- Fixing UI
- Connecting frontend with Strapi Backend
- Do sorting, filtering, searching using APIs
- Making to be able to like and comment and trying any other functions when log into the Blog Page
- Creating tables in website and developing different features

From 26 August 2024 to 31 January 2025
