

DIGITALNEXT

To whom it may concern,

Letter of Commendation

This letter of commendation is presented to **Nway Nandar Lin** in recognition of her successful completion of her internship at DigitalNext Pte Ltd, held from 26 August 2024 to 31 January 2025.

Nandar's performance during the internship was excellent covering the following areas:

1. **Front-end Development**
 - a. Vue.js and Vuetify framework implementation for responsive interfaces
 - b. Advanced CSS styling and layout optimization
 - c. Component-based architecture development
2. **Back-end Integration**
 - a. Strapi CMS configuration and management
 - b. RESTful API development and integration
 - c. Database schema design and optimization

I commend Nandar for her hard work and willingness to learn. Despite difficulties back home, she is diligent, accountable and strives to improve on her skillsets.

In DigitalNext, Nandar has gained confidence in working remotely with an international team of developers. The regular one-on-one calls and weekly team meetings improved her communication skills, predisposing her to be more comfortable in voicing her opinions and thoughts. Also, she was instilled an independence in problem-solving, consistency in development, and analytical thinking before starting a task.

I would encourage her to continue honing her communication and teamwork skills, amplifying her ability to value-add as she continues to accrue technical knowledge in her current course of study.

Sincerely,

Paul Wong
